10:55 to 11:25	Zinch.com, job/college applications	Social Sciences, Tutoring Services CAC-Maren Wilson	Computer Sciences, Business CAC-Prof. Saba	Classroom Career Contests

1. Veronica presents the “Promise for the Future Programs” to the 8th graders only.
2. Maren Wilson teaches Social Sciences including Anthropology. She also will present info. about CAC’s tutoring services.
3. Prof. Saba teaches Computer Sciences and Business at CAC.
4. Zinch.com is a website that focuses on college recruiting and how to connect to your university of choice. There is a 10 min. guided tour which explains the site. We also thought students would benefit from filling out mock job and college applications.
5. Since 7th graders are one presenter short, we came up with a few classroom contests which might be fun in small groups like making a list of the “Top 10 Reasons to graduate high school” or creating a list of careers. We are trying to arrange prizes for the best results.
